GAVA
SOLUTIONS FOR YOUR PROJECT

We are a group of Tabasco-based companies dedicated to offering services, supplies, and integrated solutions to oil service and construction companies. With over 15 years of experience, we are familiar with the stages and development required for a project.

Mission

To contribute to the development of the energy, oil, gas, and construction industries in Mexico, with high standards of quality, safety, environmental consciousness, and societal impact, in order to build trusted relationships with our clients.

Vision

To be a nationally recognized consortium for our integrated system of solutions in the industrial, oil, gas, and construction sectors.

Medical Services for the Oil Industry

We provide solutions in the pre-hospital area, emergency care, and medical supplies. We will be your best ally in medical services to meet health regulations in your projects. We have a fleet of 14 fully equipped Type II ambulances in accordance with the mexican NOM-034-SSA3-2013.

Medical, Paramedical and Nursing staff services.

Sale of Generic Medicines

Firefighting unit services and brigades.

Leasing of Medical Offices

Service and leasing of Ground Ambulances

Construction and Engineering Services

We offer comprehensive solutions in construction, property maintenance, civil works, electrical systems, and roadway development, ensuring quality, functionality, and full regulatory compliance in every project.

Road construction, clearing and earthwork

Building repair and maintenance

Civil Work Service

Electrical Installations

Stone Materials and Aggregates Supply Yard

We offer authorized stone materials and aggregates supply services, providing high-quality gravel, sand, and quarry materials for construction projects, civil engineering works, and industrial applications. We operate legally and in full compliance with current regulations, ensuring a continuous supply, efficient logistics, and adherence to the required technical specifications.

Main Products:-

- Clean 3/4" Gravel for Concrete
- 1 1/2" to Fines Gravel (Road Surfacing)
- 6" to Fines Coarse Gravel
- Clean Coarse Gravel (6" to 3")
- Rubble Stone (Under 0.50 cm)
- Stone Dust or Crushed Gravel
- Regaza or Ballast
- Rock with Sizes Greater Than 0.50 cm
- Hydraulic Base Material

Quarry Location:

Villahermosa–Escárcega Highway, KM 73, Tulijá Sección Chinal, Macuspana, Tabasco, Mexico. ZIP Code 86736.

Maritime Training and Security Services

Training and personnel development for the oil industry. We offer a wide range of courses on safety, health, and environmental issues. With over 15 years of experience in training with instructors certified by Red CONOCER and accredited by PEMEX, STPS, the International Association of Drilling Contractors, and the Merchant Marine.

- Seaman's Book Type A and D
- SCT Medical Exam
- Federal License
- Risk Work Permit System
- RigPass
- Wellsharp
- Gas checker
- Effective Audits
- Root Cause Analysis
- Fire Prevention
- Emergency Response Plan
- Hydrogen Sulfide (H2S)
- Use and Handling of Self-Contained Breathing Equipment

Instalation of Materials and Thermal Insulation

Manufacturing and assembly of metal-mechanical parts, installation of anchors and mesh for refractory concretes, welding repair. Design, calculation, and selection of materials, as well as construction of civil and architectural works. Installation and selection of fireproof materials for metal structures.

Instalation of refractory materials and thermal insulation

Fire Proofing (Fire Retardant Material Installation)

Development of metal-mechanical construction, maintenance and manufacturing

API-936 Certified Inspection Service for Equipment

Construction Supervision Service and Quality Assurance

We provide comprehensive solutions for mechanical integrity, construction supervision, engineering, and construction. Therefore, we will be your strongest asset in ensuring the quality and contractual compliance of the project.

Engineering and Surveying Services

Non-Destructive Testing, Project Book, Development, Technological Packages, Pre-commissioning Guides, Dossiers

Soil Mechanics Service

Construction Administration and Supervision of Oil and Gas Works

List of Non-Destructive Test

- Radiografía Industrial con fuente de Iridio 192.
- Ultrasonido mediante la técnica de Arreglo de Fases.
- Ultrasonido Convencional para Barridos con Haz Recto o Luz Angular.
- Ultrasonido Convencional para Medición de Espesores.
- Líquidos Penetrantes.
- Partículas Magnéticas.
- Inspección Visual.
- Inspección Dimensional.
- Atestiguamiento y ejecución de pruebas de fuga (hidrostáticas y neumáticas).
- Cámaras de Vacío.
- Réplicas Metalográficas.
- Medición de Durezas en Campo.
- Elaboración y Calificación de Procedimientos de Soldadura (códigos AWS, API, ASME).
- Integridad Mecánica de Equipos y Sistemas de Tuberías de Proceso y Ductos.

Eco-Friendly Burners.

Reduce pollutant emissions and optimize your processes with our eco-friendly burner—an innovative solution that combines sustainability and efficiency, ideal for your company's energy needs. Our technology ensures optimal performance while complying with the strictest environmental protection regulations.

- High efficiency rating; includes electronic ignition, A1-type spark at the pilot tip.
- Control panel complies with the requirements of section
- 8.1.8 of NRF-031-PEMEX-2011.
- Electronic igniter: 120 V – 10,000 V.
- 18.5 L gas tank, with larger capacity available upon request.
- Gas regulator.
- 30 m gas hose with fittings.
- 30 m heavy-duty cable, 14 AWG, 3-wire.
- Grounding system.
- Burning capacity: 40 MMPCD.
- Gas inlet: 6" hammer union, Fig. 206.
- Certifications: NDT / ASTM E165-02 Standard.

Quality Management Systems and Risk Assesment

Obtain quality, environmental, and safety certifications, as well as plans and programs related to safety, health, and the environment.

- Implementation of the QMS
- Development of Risk Atlas
- Compliance Audits
- Internal Civil Protection Plan
- Process Risk Analysis
- Accident Investigation

solucionesgava.com

Environmental Security Services

We offer government procedures for obtaining authorizations, as well as conducting environmental studies for the evaluation of projects.

- Environmental Impact Statement
- Estudios de Riesgos Ambientales
- Environmental Regulatory Compliance
- Pressure Equipment
- Noise and Lighting Study
- Sampling and analysis of CTR and wastewater
